#### Benefits

- Reduced maintenance costs (no contacts to wear out)
- Quicker floor to floor times by eliminating the delay associated with timers
- Elimination of high inrush currents
- Reduces voltage dips
- Adjustable current limit (100% - 450% of starter rating)
- Dynamic Stall protection guarantees motor will start under cold oil conditions
- Quiet operation - no contactors during the start
- Reduced stress on motor windings and the pump
- Patented Motor Wiring Detection prevents the motor from starting if miswired
- 16 Character x 2 line LCD display with full starter diagnostic information
- Keypad for parameter set up
- UL/CSA/CE

#### Electrical Data

##### Input Power

- Control Voltage - 120VAC +/- 15%
- Three Phase - 200V/230V/400V/460V +/- 15%

##### Motor Protection

- Class 5 Electronic Overload
- Phase Loss
- Phase Reversal
- Shorted SCR
- Correct Motor Wiring

## Actual-Size Drawings Help You Order the Right Part

*The drawings that follow* are actual-size outlines of the contacts you are replacing.

*If you are not sure what replacement part to order*, you can compare the part you have removed with the drawings until you find one that matches the size you need.

**Use the same procedure** to identify the replacement contact you need:

1. Go to the OEM section that corresponds to the make of the starter/contacter you are working on.
2. Find the series or model number of the contactor; if you don't know, flip through the pages until one of the contact drawings looks close to what you need.
3. Place the old contact on top of the drawing.
4. If the shape of the contact matches the drawing in all dimensions, that's the part to order.
5. If one or more dimensions are different, keep looking.
6. If you can't find what you need, please call your Adams sales representative for help.

## Part Number Index

On the following pages you will find a comprehensive index of all part numbers featured in this catalog. The part number displayed is the Adams part number used for ordering the item. Because of improvements made to Adams' systems over the years - to make it easier for you - the part number shown in most cases is the original manufacturer's part number. By following the page reference printed alongside the part number, you should find the part you are looking for.

We also provide a Cross Reference Index, immediately following this index, where you can locate the Adams part equivalent to the original manufacturer's part. With this part number and page reference, you can locate the Adams quality replacement part you need.

HOWEVER, even if you don't find the part, please CALL ADAMS. We are adding parts to our inventory every day, and chances are we can ship you the part you need! Call ADAMS at 1-800-929-9247.

## Manufacturer Part Number Cross Reference Index

On the following pages you will find cross-reference indexes for a variety of manufacturers. For each manufacturer, you can determine if there is a quality Adams replacement part for manufacturers original part – and the page number where you can find it.

In many cases, however, because of the improvements we have made to our systems, you can look-up the part in the main index under the original manufacturers part number.

IN ANY EVENT, even if you don't find the part, please CALL ADAMS. We are adding parts to our inventory everyday, and chances are we can ship you the part you need! Call ADAMS at 1-800-929-9247.
